Senior Library Assistant

Libraries are evolving faster than ever; in this constantly evolving process, our commitment ensures that our library remains a place of clarity, trust, and support for everyone who walks through our doors, even the virtual one.

We help clinicians access the evidence they need and guide students as they build their knowledge, in fact our resources are chosen with purpose: to strengthen clinical practice, empower informed decisions, and encourage learning.

We want to remind you that a very limited number of **OnExamination licences** for **MRCPsych paper A** and **paper B** are available. These will be allocated on a first-come, first-served basis, so we encourage anyone preparing for exams to register their interest as soon as possible.

This is a great opportunity to make use of high-quality learning modules before access expires. For further guidance, contact us at library.enquiries@oxfordhealth.nhs.uk

New EBSCOhost

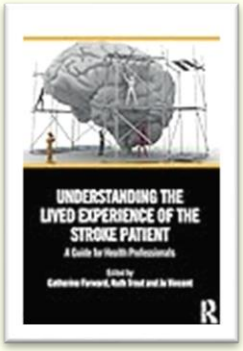

It has been confirmed that EBSCOhost, which provides access to CINAHL, Medline and other health databases, is being replaced with a new version on 14th July.

If you save articles and/or searches in **My Folder** on the current EBSCOhost, you don't need to take any action.

However, if you have **Saved alerts** or if you use the **Custom Folder** to save your records, please look up these EBSCOhost FAQs, before 14th July, to find out how to transfer them across. Please be aware that if no action is taken, these records will not be available once the new EBSCOhost is introduced.

If you have any questions, please contact us at library.enquiries@oxfordhealth.nhs.uk.
