Implementing the Workforce Race Equality Standard (WRES) is a requirement for NHS commissioners and NHS healthcare providers including independent organisations, through the [NHS standard contract](#).

The [NHS Equality and Diversity Council](#) announced on 31 July 2014 that it had agreed action to ensure employees from black and minority ethnic (BME) backgrounds have equal access to career opportunities and receive fair treatment in the workplace.

This is important because studies show that a motivated, included and valued workforce helps deliver high quality patient care, increased patient satisfaction and better patient safety.

In April 2015, after engaging and consulting with key stakeholders including other NHS organisations across England, the WRES was mandated through the NHS standard contract, starting in [2015/16](#). From 2017, independent healthcare providers are required to publish their WRES data.

The [first WRES report](#), was published in June 2016, followed by the [2016 WRES report](#) on 19 April 2017.

NHS providers are expected to show progress against a number of indicators of workforce equality, including a specific indicator to address the low numbers of BME board members across the organisation.
