Dear Colleagues,

We are writing to inform you of an upcoming change to the compression bandaging system used within your area. **Clinistretch®** will be replacing **Actico®**, within the BOB Wound Care Formulary as the cohesive inelastic short stretch bandaging system.

While there are **slight differences in application**, Clinistretch® has been designed with user-friendliness in mind while achieving **excellent patient outcomes**. To support this transition and ensure you feel confident with the new system, we are pleased to offer a series of **free CPD-accredited training sessions**.

You are invited to **book onto the following sessions**:

- **Virtual CPD Sessions** | Enrol here: **www.hadhealth.com/bob-training**
  Various dates and times throughout July, August and September.
- **Face-to-Face Practical Sessions** | **Dates to follow**
  Delivered roadshow-style across East & West Berkshire, Oxfordshire, and Buckinghamshire.
- **Lower Limb Days** | **Dates to follow**
  Haddenham Healthcare will also be attending Trust-organised events for further hands-on training.

For clinical support or PLT sessions, please don't hesitate to contact our dedicated team:

Tess Henry
Community Clinical Manager
clinical@hadhealth.com

Supporting our TVNs, District and Community nursing teams.

Wendy Graney
Clinical Support Specialist
clinical@hadhealth.com

Supporting Practice Nurses

Hannah Fulton
Local Account Manager
hannah.fulton@hadhealth.com

Product training and any other queries.

We look forward to supporting you throughout this product transition.

Warm regards,
The Haddenham Healthcare Team
